The son jumped between the two men, shotgun in hand, and emotied both barrels into Fletcher's breast, inflicting wounds which will doubtless terminate fatally.

Whatever the outcome of this affair, it is thought that it is but the beginning of a feud as bloody as any that has cursed the State in many years, as both men have many friends and staunch supporters. (By telegraph to the Dispatch.)

We can easily understand (for we have seen much of these enterprises) how a stockholder may become discontented. There are many things that may be the cause of discontent. He may have overloaded himself too heavily to pay his assessments; he may have drawn a lot that is unsatisfactory and not salable, and find that at present he can neither sell stock nor lot. He subscribed, thinking either would be like a bank-note, exchangeable for value or a premium at pleasure. He finds that ensither can be done well. Though he knows that he hasn't fininished paying the assessments on his own stock and that there are hundreds of stockholders like himself, he imagines that there must be an immense amount of money somewhere in the company's treasures; that the promoters have gotten it; that the directors moters have gotten it; that the directors it it; that somebody has it out of whom it can be unde, and he proceeds to saw off the limb on which he is sitting by attacking the company.
